

Dose Excellence Program

Dose Risk Management

Dose Excellence Program: Fix Your Errors

Helping Meet Dose Regulatory Guidelines

Supporting Patient and Staff Radiation Safety Goals

Ongoing Outcome Optimization Through Analytics & Education

Now that you have access to radiation dose data, what do you do with it? Understand the data and analytics, employ the essential dose management methodology and process, so you can reduce unnecessary radiation by helping to ensure protocols, procedures and best practices are followed.

The Fix Your Errors program will help you:

1. Identify variability in study descriptions, protocols, and the dose delivered to the patient
2. Outline your dose management goals via GE Change Acceleration Process (CAP)
3. Establish basic knowledge of dose management methodology & process
4. Improve technologist awareness of techniques and equipment features selected and the resulting dose impact
5. Initiate internal & external communication strategy around dose management

Your Concerns

"I would like to manage my risk, be sure that my procedures are below diagnostic reference levels (DRLs) and fix issues ... But I want it easy and quick ; my team has no time..."

Our Solutions

- Establish basic knowledge of dose management methodology & process
- Enhance dose concepts to support best practices & ALARA principles

Timeline

What's in it for you?

Week 1

Kickoff

2 Hours Remote or On-Site Training provided

- Setting the stage
- Identifying the team
- Communicating strategy
- Planning

Week 2

Dose Management Design Workshop (strategy & planning)

1 Day On-Site Training provided
Pre-optimization Analytics (Remote)

- Aligning vision and goals
- Setting up team, process and KPIs
- Assessing opportunities
- Planning dose management

Week 4

Dose Excellence Essential Training (introductory consulting)

1 Day On-Site Training provided

- Basic knowledge of dose management methodology and process
- Dose optimization practice
- Support as you initiate communication strategy

Weeks 8-12

Sustainability Training

1 Day On-Site Training provided
Post-optimization Analytics (Remote)

- Post optimization workflow and dose analysis
- Staff education recommendations
- Determine next steps for continuous improvement

It's not business as usual.
